1. Connect the dock to the Chromebook
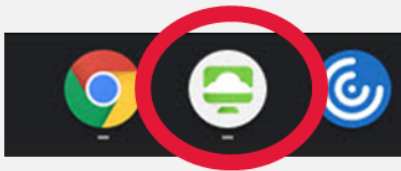

2. Connect your peripherals to the dock

Keyboard/Mouse/Headset Connectors

Monitor Connectors
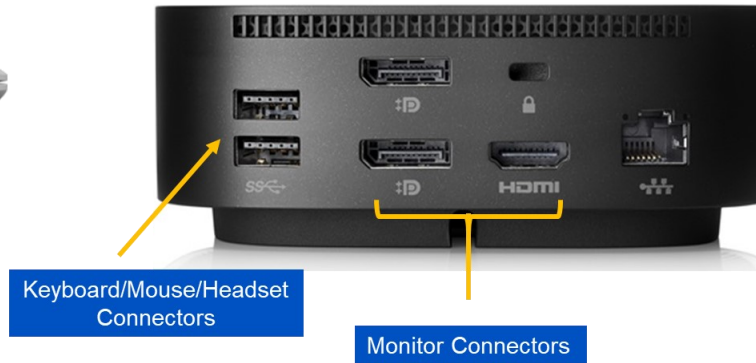

3. If the dock comes with a power supply plug this into the dock and wall outlet.

1 Load Horizon

- From your Chromebook the portal screen should automatically launch when the device is turned on.
- Wait for the Horizon logo to appear on the bottom of the screen:

- **Simply wait for this logo to load and then proceed to follow the next steps**
- **This could take up to 5 minutes to appear depending on internet speeds.**
- **If this logo does not appear – Reboot the device**

2 Connect to the Portal

- Ensure you navigate to the Portal using the Chrome Browser – This ensures you can open your Citrix or Horizon resource.
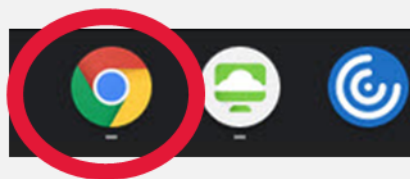

3 Launch your resource

- Once you have authenticated through the portal, Launch your Citrix or Horizon resource.
- Your HVD/Remote PC session will automatically load.
